WEDNESDAY, AUGUST 9, 1899.

FROM 1880 TO 1890 prohibition Kansas increased her wealth per capita from \$763 to \$1261.

THE CHICAGO DEMOCRAT asks:
Why should any one want to cause Congressman Roberts any trouble? He has three wives.

UNCLE SAM is arranging for a census to be taken in Cuba soon. None has been taken on the island in thirteen years. We will probably realize after this one more fully than we ever have before the ravages of hardship, Spanish bullets and torture upon the natives.

THE news that Aguinaldo receives from the United States is meager, but he hears enough to worry him when he hears that the troops are sailing by the shipload, and that the shipments will not stop until the American army is not only big enough to take every city in Luzon, but to hold them all.—Commercial Tribune.

SECRETARY-OF-WAR ROOT says that the war in the Philippines from now on will be prosecuted with all possible energy. All the men, all the arms and all the supplies necessary to end the trouble in the islands will be furnished at the earliest possible moment. He further affirms that there will be 50,000 men there ready for active service at the close of the rainy season, about the last of October.

THERE has been a general uprising of citizens against the Mormons in various parts of the south. It seems that the number of Mormon elders has been greatly increased this summer, and their boldness has caused the people to do what we consider was the proper thing—rise up in rebellion. They may though in true southern style have carried their opposition to an extreme. Within the last two weeks more than fifty elders have been driven from communities in which they were teaching. President B. E. Rich, who is at the home of the head of the southern department of the Mormon Church, has appealed to Governor Candler, of Georgia, for protection against mob violence in that state.

THERE has been a great deal said about the fatalities in the Philippines. We notice that a recent paper gives the total number as 738. Only 310 of the number were killed in battle or died from the effect of wounds received in action. Even those figures may seem large, still without doubt there were more than that number of people killed by accident on the Fourth of July last in the United States. And against the 426 who have died of disease is to be set the number out of an army of this size who have died at home. We regret that it is undoubtedly true that a large per cent. of the army has been weakened by privations and climate, but on the whole we believe that the losses are less than ever before known in such a campaign.

Two Teachers in the Same School.
Miss Jessie M. Smilie, of Oberlin, '97 class, who accepted a position as instructor of shorthand and typewriting in Berkey & Dyke's Private Business School, Cleveland, has been doing such efficient work that these gentlemen applied to us for another teacher. Miss Minnie Strubel, of Lorain, secured the place.

High-grade work, up-to-date methods, practical teachers and honest dealing are the most powerful magnets among thoughtful parents and students. This is why the better class of students flock to the Elyria Business College. Our students are men and women, not boys and girls. For full particulars drop a card to Ellicker & Brandt, Elyria, O., or call at their office in the Elyria block.

New County Board of Elections.

The county board of elections met to organize the board for 1899 in the office of the county commissioners in Elyria, Aug. 16. The present members of the board are A. H. Babcock, of Elyria; L. E. Day, Elyria; George Prince, Oberlin; J. L. Vanarman, Wellington.

The board organized by electing L. E. Day chief deputy, Ben. W. Johnson, clerk to succeed I. H. Griswold. The new clerk is a young attorney of Elyria. He is spoken of as a bright, energetic young man. He is a son of M. L. Johnson.

A MUSICAL CLUB.

To be Formed in Wellington—Entertaining as Well as Instructive.

Within the last few decades there has been a decided change in the attitude of the better class of people toward music. It is not now considered as it once was, the trade of wandering minstrels who went a-out from place to place, picking up a precarious living. But it has been gradually elevated and perfected though the efforts of noble-minded persons, who have devoted their lives to it, until it is now regarded as one of the, if not the highest art.

It is looked upon as a necessity, and finds a place everywhere. The home is not complete without it. All organizations need it. No matter what the event, music is one of the necessities. It is the promoter of more happiness and pleasure than any other art. We find it studied in some form or other all over the world. Yet few know anything of its origin and the stages through which it passed to reach its present completeness. We hear the beautiful things played or sung, but think very little of how we chance to have them so.

In nearly all the larger cities and many of the smaller ones clubs have been organized for the study of music, either historically or from the different composers. The instruction is usually given in the form of written lectures read before the club, interspersed by recitals to illustrate music in its different stages of progress.

We understand that Mrs. E. M. Rosier intends to organize and conduct a club of this kind in Wellington to begin a course about the middle of September. The course is to consist of a series of twelve papers, taking up the history of music from its origin through its various stages to the present time. The course will be divided into periods of three lectures each. At the end of each there will be given a recital to illustrate the music of the period discussed. At the end of the four periods there will be given a miscellaneous recital taking music from all the periods. These recitals will be instrumental and vocal and will be given by first-class talent. Tickets for the course including lectures and recitals will be sold for \$3.00. For all the recitals alone, \$1.50; or 50 cents for one recital.

The County Institute.

The Lorain County Institute will be held next week at Elyria, beginning Monday, August 21 and continuing five days.

The instructors are Supt. E. A. Jones, of Massillon, and Prof. J. B. Gordy, of the State University. Both of these are excellent instructors and the institute can not fail to be profitable to all who attend. The boys and girls who successfully passed the Boxwell examination are requested to be present at the Elyria high school room on next Wednesday at 2 o'clock p. m., to receive their diplomas. Their presentation and an address suitable to the occasion, will be one of the features of Wednesday's afternoon session of the institute.

Democratic Caucus.

Democrats of the first and second precincts, Wellington, O., will meet at the voting room, Aug. 18, at 7:30 p. m., to select six delegates to attend the county convention which will be held in the court house at Elyria, Aug. 26. By order of committee.

A disease called "black leg" has broken out among a herd of cattle near Zanesville. The disease has a peculiar effect, starting in every case of which we have heard in the right hind leg of the cattle, the swelling extending into all four legs and the chest and resulting in death.

Cards have been received announcing the marriage of Miss L. Bertina Morgan, eldest daughter of Mr. and Mrs. F. G. Morgan, of LaGrange, to Prof. Leonard J. Sweet, which took place at high noon Monday, July 24, at Windsor, Ontario. The beautiful ceremony was performed by Rev. C. Hinks according to the church of England, after which the young couple left for a trip up the lakes. Owing to the recent death of the bride's grandmother, the wedding was very quiet.

Mrs. Sweet is a graduate of the L. H. S., class of '90, and is one of LaGrange's brightest and most estimable young ladies, and is an accomplished musician, having attended the conservatory of music at Oberlin, and under such masters as Wilson G. Smith, of Cleveland. She has also been a successful teacher in our union schools, where by her charming personality she has endeared herself to a large circle of friends. Prof. Sweet is also well-known in LaGrange, where he formerly lived. He is professor of penmanship in the Elyria schools, a position which he has held with honor for several years, during which time he has made staunch friends of those with whom he has had business relations. Many walnut trees in this vicinity have been stripped of their leaves by a small gray caterpillar. The destroyer is thought to be the gypsy caterpillar, two of which were brought here from Europe some years ago by an entomologist. Through an accident they escaped and since then have multiplied rapidly until they have proven a great annoyance in some parts of the eastern states.

Items of Interest to Wellington Readers.

Prof. W. A. Moulder of Goldey Business College, Wilmington, Del., is spending a two months' vacation with his parents at Henrietta. He completed his business training at Oberlin. His salary is \$105 per month.

W. C. LeMaster, teller of the Elyria Savings and Deposit Co., was a visitor at the Oberlin Business College last Friday. He completed a course in this college seven years ago, at which time he was recommended to his present position by President Henderson.

Prof. Nieswager of the Youngstown Business College, telephoned President Henderson a few days since for a teacher of Electric Shorthand, for the coming year, offering \$600 for first year. One of the advanced students has been recommended. This is the system of shorthand that is so rapidly coming into use by our best stenographers on account of its being so easy to learn, easy to read, easy to write, and also because it is capable of great speed. Students are not obliged to spend months in memorizing 500 to 1000 word signs. It is already used in many of our best Business Colleges. The Modern School of Shorthand and Business Training of Cleveland recently adopted it. The manager of this school is himself a Graham writer.

A. E. Peat of Norwalk who completed the shorthand course about two weeks ago, has already secured a fine position as stenographer for the Erie Railway Company, Cleveland, where he receives a salary of \$50 per month to begin with. We quote from his letter: "My hours are easy but let me tell you it is all work. I get out about 75 to 100 letters, claims, memoranda, etc. every day, make carbon copies of each letter besides filing and mailing." Very few beginners could fill such a position. Mr. Peat uses the Electric System of shorthand. There is no question but that the graduates of the Business College at Oberlin are prepared to fill a much better class of positions than those of such schools generally while the rates of tuition are even lower than those of other schools.

Elyria Business College.

The following students secured positions since July 1:

Miss Minnie Strubel, stenographer and bookkeeper, the Troxel Manufacturing Company, Elyria.

Miss Dora Nichols, stenographer, United States Agency Company, Cleveland.

Miss Lillian Ireland, stenographer, the Traders' Collecting Agency, Cleveland.

Miss Nellie Fitzgerald, stenographer, the Johnson Company, Lorain.

Mr. C. A. Balcomb, stenographer, Valley Railroad, Cleveland.

Miss Susie Hathaway, stenographer, A. R. Williams & Company, Cleveland.

Miss Emelyn Gower, stenographer, Lorain Store Works, Lorain.

Mr. W. L. Ellicker, stenographer and collector, Forest City Iron Company, Cleveland.

Miss Alyce Dowd, stenographer, Cleveland Varnish Company, Cleveland.

Miss Clara Hill, stenographer, Mrs. Emma S. Olds, Elyria.

Mr. W. E. Richard, bookkeeper, Elyria Lumber Company, Elyria.

We are receiving more calls than we can fill. Have just had another call for a teacher of the Graham system of shorthand.

Mr. J. J. Deitz, Big Four ticket agent, Grafton, entered our shorthand department this week.
